Give Brad Smith credit: he didn't wuss out in front of a potentially hostile crowd.

Late Tuesday afternoon, Microsoft's top lawyer got on stage at a open-source conference in San Francisco and tried to find common ground with the audience.

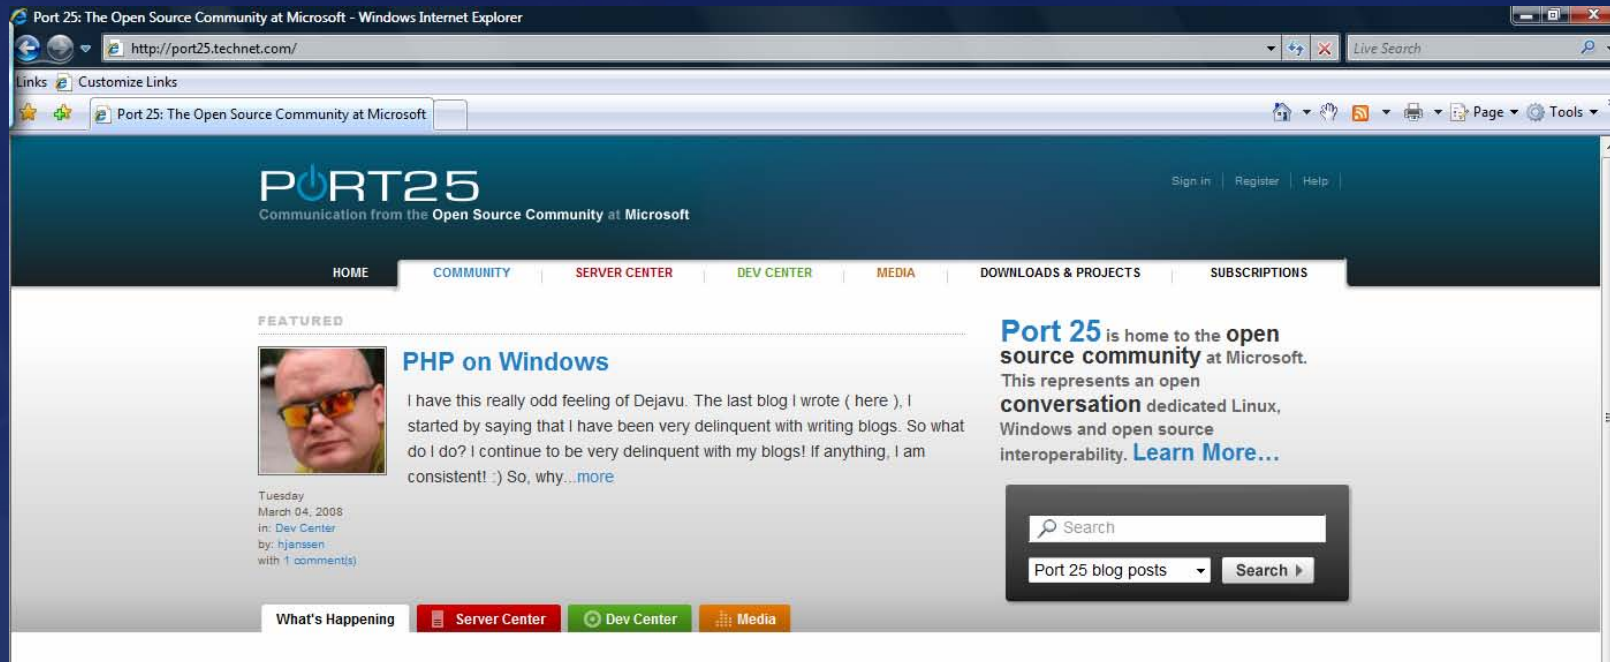

Brad Smith, Keynoting OSBC, 3/25/08

ODF ÎN OFFICE 2007 SP2

Formatele de documente ODF 1.1 (utilizate în OpenOffice sau Symphony) vor fi suportate (read-write) în service pack-ul pe care îl pregătim pentru prima jumătate a anului următor. Doritorii, vor putea chiar seta ODF ca format default în Office 2007. PDF 1.5 și XPS vor fi suportate și ele (în momentul de față pentru a salva PDF sau XPS trebuie să va instalați un add-in). Iată și o poză de la Doug:

Suport pentru IS29500 (Open XML ratificat de ISO) vom avea în Office 14 (versiunea următoare).
Au mai scris despre asta:

- Microsoft PressPass
- Doug Mahugh
- Gray Knowlton
